J. Badur: Energy Conversion in Fluid Flow Machinery — a look on modern computational tools and their industrial applications	3
M. Banaszkiewicz: Numerical investigation of creep behaviour of high-temperature steam turbine components	5
L. Nastalek, M. Karcz, D. Sławiński, W. Zakrzewski, P. Ziółkowski, C. Szyrejko, J. Topolski, R. Werner and J. Badur: On the internal efficiency of a turbine stage: classical and computational fluid dynamics definitions	17
D. Sławiński and W. Zakrzewski: Dynamic analysis of the control stage of a high speed steam turbine	41
P. Ziółkowski and J. Badur: Clean gas technologies — towards zero-emission repowering of Pomerania	51
W. Zakrzewski: On proper closures for modeling of turbulent combustion	81
K. Jesionek, A. Chrzczonowski, P. Ziółkowski and J. Badur: Enhancement of the Brayton cycle efficiency by water or steam utilization	93
W. Zakrzewski, M. Karcz and S. Kornet: Estimation of the steam condensation flow via CFD methods	111
