

C O N T E N T S

T. Bohdal and M. Czapp: Analysis of propagation of disturbances in a two-phase refrigeration medium	3
K. Dutkowski: Single phase pressure drop in minichannels	17
K. Rup, M. Gargula and P. Sarna: Numerical simulation of turbulent flow through a square-sectioned duct with a 90-degree bend using FLUENT	33
G. Brak and P. Cyklis: LiBr-H ₂ O absorption cycle design for whole year use in medium climate conditions	49
A. Papierski and G. Peczkis: Flow through an eccentric longitudinal clearance ring	67
