

TRANSACTIONS OF THE INSTITUTE OF FLUID-FLOW MACHINERY
No. 125, 2013

C O N T E N T S

| | |
|--|----|
| J.T. Cieśliński and K. Krygier: Influence of surface curvature on sessile droplet contact angle of nanofuids | 3 |
| K. Ronewicz, T. Turzyński and D. Kardaś: Design and distribution of air nozzles in the biomass boiler assembly | 13 |
| L. Broniarz-Press, M. Ochowiak, S. Włodarczyk and M. Markuszewska: Effervescent atomization of glycerol aqueous solutions | 29 |
| M. Masiukiewicz, D. Zając and R. Ulbrich: Application of stereology for assessment of two-phase flow structures | 39 |
| T. Turzyński and D. Kardaś: Experimental research on helical coil biomass boiler with oil as a heating fluid | 55 |
