

TRANSACTIONS OF THE INSTITUTE OF FLUID-FLOW MACHINERY  
No. 132, 2016

## C O N T E N T S

<b>B.G. Gireń and M. Noińska-Macińska:</b> Cavitation erosion regimes — an attempt of deriving classification predictor .....	3
<b>V. Nezym:</b> Aerodynamic test of fixed-geometry and adjustable additional blades in axial-flow compressor stage .....	17
<b>K. Wójcik:</b> Absorptive separation of carbon dioxide from flue gas of high capacity power plants .....	29
<b>S. Gomuła and A. Woźniak:</b> The influence of power properties of the wind turbine on energetic and economic indicators of electric energy production .....	57
<b>J. Krzywański, T. Czakiert, W. Muskała, W. Nowak and J. Pacyna:</b> Emissions of CO <sub>2</sub> , CO, NO <sub>x</sub> and N <sub>2</sub> O from dried lignite combustion in oxygen-enriched O <sub>2</sub> /CO <sub>2</sub> atmospheres in a circulating fluidized bed boiler .....	71
<b>M. Grzelczak, A. Tralewski and Z. Pałucki:</b> Analysis of flow structure and performance of the centrifugal compressor impellers .....	87
