

TRANSACTIONS OF THE INSTITUTE OF FLUID-FLOW MACHINERY
No. 130, 2015

C O N T E N T S

J. Steller, A. Adamkowski, A. Henke, W. Janicki and Z. Krzemianowski: Discharge measurement and performance tests of hydraulic units in low-head small hydropower installations	3
Y.I. Bylik, V.S. Martsinkovsky, O.A. Nosova, V.B. Tarelnik and V.I. Yurko: Technical solution for improve the efficiency of the steam turbines	31
K. Karaśkiewicz and Ł. Złoty: Investigations of turbulent flow through axial thrust balance holes in rotodynamic pumps	57
P. Kaszowski and M. Dzida: CFD analysis of fluid flow through the labyrinth seal	71
J. Szymczyk and K. Karaśkiewicz: The modeling of centrifugal pump transients	83
J. Grzelak and Z. Wierciński: The decay power law in turbulence generated by grids	93
S. Gumuła and K. Stanis: The autonomic energy system of the residential building based on renewable energy sources ...	109
